- Height: Truck Height: 123" (10' 3")
- GVWR: 81,000
- Wheelbase: 255 (21' 3)
- This 2016 Deep South / KME is a unique truck. The KME chassis was originally built for a ladder truck. The aerial device and fire body were removed. Deep South Fire, in Seminary, MS, installed a new pump, a new tank, and a new fire body. We think of it as a middle option between ordering a used truck and buying something used.

Brindlee Mountain Fire Apparatus is one of the world's largest used fire truck sales and service companies. Based just outside of Huntsville, Alabama, the company has forty-five full-time personnel occupying over 12,000 square feet. Our mechanics, all of whom are EVT certified, perform pump tests, general repairs, preventative maintenance, and body, collision, and paint work on over 500 used fire trucks every year.
