2026 BLZ Ranger 60 Skid Unit

2026 BLZ Ranger 60 Skid Unit

Other Chassis

Scout 45- Rapid Response Electric Fire Skid

The Scout 45 is a lightweight, high-performance fire skid built for fast deployment. Designed for ranchers, landowners, and first

responders, it delivers serious suppression power in a compact package that fits UTVs, small trucks, or trailers.

45 Gallon Polypropylene Tank

16 GPM 24V Redline Pump for high output and reliable pressure

Hose & Reel: Heavy-duty hose reel equipped with 75 feet of hose

Construction: Rugged Polypro™ Construction with a compact footprint for easy transport and tight-area access

Nozzle: Adjustable nozzle for precise stream or fan pattern control

○ Additional equipment not included with purchase unless otherwise listed. Mileage readings may not be real-time and should be confirmed.

○ Length: 27.5"

○ Height: Truck Height: 31"

○ GVWR: 200

○ The BLZ Ranger™ 60 is a mid-size 60-gallon UTV fire skid built for fast, flexible response in wildfire zones, ranch operations, and remote terrain. Powered by the BLZ Redline™ electric fire pump, it delivers clean, quiet, on-demand performance—no fuel, no fumes, and no pull starts.

Runtime is about 6 hours on a full battery, but after connecting the FightFinity system to your UTV, the runtime is infinite.

Designed to fit UTVs and small trucks, this compact fire skid unit brings together portability, precision, and dependable suppression power. It's well-suited for tight trails, rough access points, and situations where larger fire skid units can't go.

With its isolated onboard charging technology, the Ranger 60 stays ready for duty at all times. The system keeps the battery charged directly from the vehicle without interfering with the UTV's electrical system, so there's no risk of draining your primary power source. That means when you reach the scene, the pump is ready to run—no setup, no guesswork, no delays.

A solid fit for wildland crews, ranchers, and forestry teams, the Ranger 60 is a reliable UTV skid unit that's easy to operate and maintain. If you need a straightforward fire skid unit for UTV use or a capable rescue skid for off-road response, this unit is ready to work.

From wildland fire UTV skid units to practical ATV fire fighting equipment, the Ranger 60 delivers efficient performance in a durable, no-nonsense package.

Dimensions: L27.5xW48xH35

300lb Dry Weight

125 feet of 3/4 Hose
